"Wisdom is knowing what to do next, skill is knowing how to do it, and virtue is doing it" - David Starr Jordan

As India moves progressively towards becoming a global knowledge economy, it must meet the rising aspirations of its youth. This can be partially achieved through focus on advancement of skills that are relevant to the emerging economic environment. Large sections of the educated workforce have little or no job skills, making them largely unemployable. Therefore, India must focus on scaling up skill training efforts to meet the demands of employers and drive economic growth.

The country’s population pyramid is expected to bulge across the 15–59 age group over the next decade. This demographic advantage is predicted to last only until 2040. To reap this demographic dividend, India needs to equip its workforce with employable skills and knowledge so that they can contribute substantively to the economic growth and social development of the country.

One of the biggest challenges of skill development in our country is that 93% of the workforce is in the informal sector. Consequently, it is difficult to map existing skills in the unorganised sector and gauge its skilling requirement. On the other hand, the rate of job growth in the informal sector is estimated to be twice that in the formal sector.

Women constitute almost half of the demographic dividend. The key challenge here is to increase their participation in the country’s labour force, which is directly linked to economic growth of the country.

Skill development is the shared responsibility of the key stakeholders viz.
Government, the entire spectrum of corporate sector, community based organizations, those outstanding, highly qualified and dedicated individuals who have been working in the skilling and entrepreneurship space for many years, industry and trade organizations and other stakeholders.

National Skill Development and Entrepreneurship Policy 2015 attempts to address these concerns. It tries to bring the world of education and training closer to the world of work so as to enable them together build a Strong India.

The Skill Development initiative has piqued the interests of the teachers and students at Ratinam, and they, as responsible stakeholders, will strive towards transforming India’s Skill Landscape.

The entrepreneur always searches for change, responds to it and exploits it as an opportunity.

I congratulate the staff and students of NES Ratnam College on the release of the latest edition of Ratnamite. The year 2015-16 is special for me as it marked the beginning of a major step taken by the college in solidarity with the national initiative to project India as a nation of entrepreneurs. The NES Student Start-up Fest was a proud achievement that enabled students with entrepreneurial interests and propensities to interact with and be mentored by successful business owners, financiers, and bureaucrats on the challenges confronting budding entrepreneurs in the form of organisational, financial and bureaucratic impediments.

It has always been my dream to create a community of student entrepreneurs who enrich the economy by launching their unique ideas and services and thereby not only ensure prosperity through self-employment but also create jobs for others. With this objective in mind I intend to establish an Entrepreneur Cell in the college. Our effort is to introduce programmes related to entrepreneurship as part of class room activities to tap the business competencies of students in addition to seminars, workshops, industrial visits, and the various co-curricular, extracurricular activities and competitions held at frequent intervals throughout the academic tenure. Such academic programmes go a long way in helping the students to attain the support tools necessary for launching and sustaining a business namely communication skills, digital readiness, marketing skills, management abilities and an understanding of the economy.

Educators have an important role in inculcating in students the essential traits that characterise an entrepreneur namely ambition, self confidence, desire for innovation and a strong work ethic which will help them in any profession. I extend full support to the staff of Ratnam College in their endeavour to prepare their students for a meaningful and successful participation in the national economy and society at large.
I take the privilege of presenting the annual report for the year 2015-16. Our college has always believed in and successfully striven to empower our students with skills and values intrinsic to both self-development and the larger goal of social transformation for a progressively better life, by providing ample opportunities for all round development throughout the academic year. The theme for the year was 'Keeping student's life and career as paramount, meet the needs and interests of each student, and support students' growth by providing appropriate, diverse academic programmes'. The student centric thrust of the annual theme has governed the range of academic, co-curricular and extracurricular activities that were organized to engage the interests and creative imagination of the students.

Academics

The results at the various University Examinations were keeping in line with the tradition of almost 100 % results. The Departments of Botany, Zoology, English, Marathi, History and Political Science secured 100 % results.

Peace

Peace is incarnation of God
Expression of compassion and love
Exchequer of a country
It symbolizes the innocent pigeon
Peace is a weapon which
Drives out enmity war hostility
And racial discrimination
Every soul should long for peace
It should be demonstrated in a fraternal way
Peace is a vital force
Which is there in the nerve of every individual
Hold an innocent pigeon but don’t crush it
If there is no peace there is no life

She !!!!

She is not a doll to be played with;
She is not a servant to make her serve you;
She is not a beggar to make her beg in front of others;
She is not a financial bank to help you keep you financially stable by allowing others to use her and destroy her self-respect;
She is not a dark fringe to tolerate everything;
She is a bright sun, when you respect her and allow her open up her feelings;
She can help you keep financially secure by working hard day and night, only when you secure her protection and her self-respect.
She can do anything, provided she is respected.
She is one of a kind to make the nation feel proud, like Kalpana Chawla- First Lady Astronaut.
BUT, only when SHE, a lady, a woman, a girl IS RESPECTED !!!!

Short Story

Dad took his son to a village to show poverty…
After the trip he asked his son about poverty,
Son replied
We have one dog, they have four
We have small pool, they have long river
We have lamp, they have stars
We have small piece of land, they have large fields,
We buy food, they grow theirs…
The boy's dad was speechless…
Then boy said-
"Thanks dad for showing me how poor we are.”
Life is all about how we see,
Interpret and accept things...

Take birth on the earth

Let me take birth!!
Now you are in God’s place
Let me play with my brother
O’ Mother, don’t kill me
Let me take birth!
You are the Mother, the sister
And the daughter
I am at the same place,
Where you were some years before
O’ Mother remember, if a girl is not born
No one is born
This world will come to an end

The Pain of Being Caged

Free birds fly
High above the sky
They spin & slope
And float & flex
Their feathers too bright
Their songs so sweet & wild
But there the caged bird
Who hardly feels the breeze
is annoyed with the wings that freeze.
Beating wings sees the beauty
And feels the soft breeze
And the warm sun that seizes
And declares the sky to be his own.
But there the caged bird
Feels that deep pain
Sometimes jealous, sometimes in prayer
Let not the other winged be caged.
Flying birds sing the song of JOY
And the trapped the song of SORROW
Eager is the caged, to be free
To know the things unknown
To rejoice again in the beauty of nature
There it waits, poor little caged.
Let them free I say,
For I know,
The Pain of the Caged.

Describing My Sister

To me you are an angel of life,
You are cute, adorable and wise.
I see my heaven, when I see you
You are my heartbeat, you are my breath.
You support me, in hard times
You give me your hand when ever I need.
If I had one wish, it would surely be
To write your destiny with my hand
You love me like our mother,
And you love me like our father
Thankyou my sister my bestfriend
My gratitude for you will never end

**My Duel with the Mirror**

Once my uncle's grand party arrived.
And can't tell you how I survived.
Since it was grand the need was to look good,
I always appreciated my looks, but no one else
would.
I didn't care for my looks but it's not always
your choice.
If I disagreed, my mother would be yelling at
top of her voice.
Unwillingly, I accepted some outfits
But still I had intention of cutting them into
bits.
I gave up the protest and found a mirror in front
of me,
I had to mind my looks in order to be free.
I made a little effort and thought I Had done it
thereafter,
But the mirror said “on seeing you everyone
will burst into laughter”.
I didn't lose hope ;and once again I fought
This time the attempts are not in vain I thought
But the mirror disapproved and it's expressions
remained the same.
With this, my chances of looking good had
become extremely lame.
Now, I grew annoyed I grew desperate
It seemed the mirror sought to humiliate me.
I used up everything I could, to look well
And told the mirror to go to hell.
I was confident but nervousness still sustained.
I went to my parents and they looked happy to
see
But one question still remained
Who won the duel? Was it mirror or was it me?

**Time Immemorial**

In the times immemorial,
Lord Brahma created me
With no bars and no walls.
I was equal to one and all.
I had people who
Loved me truly and selflessly.
They called me their mother,
And played on me fearlessly.
But what do I see today,
Bits of paper, more precious than me to them.
The ego of men and women prevail over the
love,
I have bestowed on them.
In the times immemorial,
I was the Mother India.
I had the sons of soil living on me
Who loved me more than their own lives.
Today they are somewhere lost in history,
And honesty, love and truth have become a
sort of mystery.
Bring for me the same land where truth
prevailed,
Bring for me the same world from which
humans hailed.
Make me the same mother whom her kids
loved,
Make me the same India whom they called
Mother India.

**NES Ratnam is the Best**

There are many stars in the sky
But some of them are twinkling very high.
I know one such star and you know it too.
So I leave the guessing part on to you.
Now-a-days its name is very famous.

I have my pride and I have the trust.
Its rules are hard like the earth's crust
Whether you go east or you go west
At last you will say
NES RATNAM is the best.

My Lord Help Me

The weight of this world is seemingly on my shoulder; My back is slowly breaking. With each fracture, I find my tears swelling behind my eyes. And yet, rarely will you find them escape. I don't cry often over my tears. Because I know that, that's exactly what they are, "Tests" I know my lord is watching me, examining me, And will ultimately judge me on how well I fair. It's in these dark moments that you realise the truth, Behind so many falsehoods, Hearts are revealed and what they truly contain. I dare not to ask anyone except my lord to help me. And by help I mean to ask oh lord! oh merciful! Help me, to get away from mean people. Oh lord! Help me so that I can help the needy. Oh lord! help me so that I can make my parents proud. Oh lord! Oh lord! Oh lord! I am helpless. I am nothing without you. Help me!

Ignaz Semmelweis

Ignaz Semmelweis may not be a household name, yet his work has benefited most modern families. Born in Buda (now Budapest), Hungary, he received his medical degree at the University of Vienna in 1844. On taking up his post as assistant to a professor at the First Maternity Clinic of Vienna's General Hospital in 1846, Semmelweis faced an appalling reality. More than 13 percent of the women giving birth there died from a disease called childbed fever.

Various theories as to the cause of this disease had been proposed, yet no one had solved the mystery. All attempts to reduce the mortality rate proved futile. Troubled by the spectacle of numerous mothers suffering a slow, agonizing death, Semmelweis was determined to find the cause of the disease and prevent it.

The hospital in which Semmelweis worked had two separate maternity clinics, and curiously, the maternal death rate was much higher in the first clinic than it was in the second. The only difference between the two clinics was that medical students were taught in the first and midwives in the second. Why, then, such a difference in death rates? Probing that question, Semmelweis systematically eliminated possible causes of the disease, but the culprit remained elusive.

In early 1847, Semmelweis was presented with a crucial clue. His colleague and friend Jakob Kolletschka had died from blood poisoning after sustaining a wound while performing a post-mortem examination. As he read the report of the autopsy performed on Kolletschka, Semmelweis realized that in some aspects, the findings were identical to those of the victims of childbed fever. Hence, Semmelweis thought that perhaps what he termed 'poisons' from
cadavers were infecting pregnant patients, thus causing childbed fever. Doctors and medical students, who frequently did autopsies before going to the maternity ward, had unwittingly been transmitting the disease to expectant mothers during obstetric examinations or childbirth! Mortality in the second ward was lower because students of midwifery did not perform autopsies.

Semmelweis immediately introduced a strict policy of handwashing, which included sterilizing the hands in a solution of chlorinated lime before initiating examinations of pregnant women. The results were dramatic: mortality rates plummeted from 18.27 percent in April to 0.19 percent by the end of the year.

'My doctrines exist to rid maternity hospitals of their horror, to preserve the wife for her husband and the mother for her child.' — Ignaz Semmelweis.

Not all welcomed Semmelweis' success. The results he obtained challenged the theories concerning childbed fever held by his superior, who also found Semmelweis' insistent manner irritating. Semmelweis eventually lost his post in Vienna and returned to Hungary. There he took charge of the obstetrics department at the St. Rochus Hospital in Pest, where his methods brought down the mortality rate for childbed fever to under 1 percent.

In 1861, Semmelweis published his life's work, *The Cause, Concept, and Prophylaxis of Childbed Fever*. Unfortunately, the importance of his findings was not recognized until some years later. In the meantime, countless lives that could have been saved were tragically lost.

Semmelweis was eventually recognized as one of the fathers of the modern antiseptic technique. His work helped to establish that microscopic matter can cause disease. He is part of the history of the germ theory of disease, which has been called "the single most important contribution to medical science and practice."

Semmelweis, through his work made a very big discovery not only in medical history but also for common people about "how a simple handwashing can help in maintaining hygiene and save our life. Handwashing today has become a practice of our daily life but still today in India there are many people who do not maintain this practice and many don't even know its importance. To lead a safe and hygienic life we need to take care of ourselves because "When we take care of ourselves we take care of our loved ones and others."

Let us take the first step and make handwashing a priority. Let's spread word and let others know about handwashing and teach kids why it is so important. Let’s learn from Semmelweis and lead a healthy life.

School Life vs College Life

School life and College life are two different stages in your life that show lot of differences between them. School life is generally more disciplined than college life.

During school life you would learn the basic etiquette regarding social conduct whereas during college life you would display the etiquette to the maximum extent possible.

You are tied by several rules and regulations during your school life. There are rules about almost everything in a school such as those pertaining to punctuality, attendance, uniform and the like. College life, on the other hand, is not bound by several rules and regulations.

You are bound by dress code when you are in your school life. Each school prescribes its own uniform for that matter to be worn by its students. Students who do not come to the school with the specific uniform are generally not allowed inside the school. On the other hand college life is not bound by a dress code. Students are generally allowed to wear anything they like.

You should be punctual and on time to school but the rules are a bit relaxed in colleges when it comes to punctuality and attendance. Of course there are still many colleges and universities in the world that insist on a minimum attendance to sit for the final examinations.

During your school life you are expected to take examinations quite frequently in all your classes. Normally there are three types of examinations called weekly examinations, monthly examinations and mid-term examinations that may be split as quarterly and half-yearly examinations during your school life.

There are not many examinations a student is supposed to take every year during his college life. There are usually two types of examinations each year, namely, the model examinations and the semester examinations during college life. Some colleges and universities have examinations such as mid-term examinations too in addition to those mentioned above.

Cultural programs are limited when it comes to school life, while colleges conduct a lot of cultural programs during a year. Students from different colleges participate in these programs in large numbers. This is a big difference between school life and college life.

One of the main differences between school life and college life is that school life tends to become unforgettable for several reasons. College life, though, is not very much cherished. There is always a pressure on you to go for employment the moment you enter into a college for higher studies. This is probably one of the reasons why college life is not generally remembered for a long time.

A Library Is A Good Place For Study

In my view, a library is a good place for school students. The students who spend an extra time on learning after a regular class find the library satisfying due to online materials, books on shelves and a good atmosphere.

First, Students can surf the internet for online materials to support studying outside a classroom. Students do not have to pay money because an internet service is available to them without charge. They just type a password of the student card on a computer code interface so that they will be able to access to online learning sources. Moreover, there are many computers around the library; therefore, they do not have to rush to play a computer early morning. Also, an internet service is based on a broadband network, of which the speed
is faster than any other. This is so appropriate that students will be able to quickly learn through online classes.

Second, students can search for books which are useful to self-learning. There are several books on various subjects. Because of this, they do not get riled up only because of no preferred textbooks. Furthermore, students do not have to pay money to find a textbook in a library to read and practice exercises inside the textbook.

Finally, students pay off if they spend extra times studying in a library due to a good atmosphere. Students feel comfortable while reading a book in a library. An air conditioning system releases cold air which the students are fond of in order to support extra learning exercises. Besides, there are no sounds which affect students' learning beyond a regular basis because it is one of the library’s rules to punish anyone who makes a noise.

In conclusion, when finishing a normal class, students who think learning in class is not enough and still want more time to study can go to a library which has a proper temperature to find books and even look for online materials to do school assignments not generally remembered for a long time.

शिक्षक राष्ट्र की संस्कृति के चतुर माली:–

5 सितंबर को एक बार फिर सारा देश भारत के पूरे राष्ट्रपति सर्वपल्ली डा. राधाकृष्णन का जन्मदिवस ‘शिक्षक दिवस’ के रूप में मनाया जा रहा है। महर्षि अरविंद ने शिक्षकों के सम्बन्ध में कहा है कि “शिक्षक राष्ट्र की संस्कृति के चतुर माली होते हैं।” वे संस्कारों की जड़ें में खाब देते हैं और अपने श्रम से सींचकर उन्हें शक्ति में निर्मित करते हैं। महर्षि अरविंद का मानना था कि किसी राष्ट्र के वास्तविक निर्माण उस देश के शिक्षक होते हैं।

इस प्रकार एक विकसित समृद्ध और खुशहाल देश व विश्व के निर्माण में शिक्षकों की भूमिका ही सबसे ज्यादा महत्वपूर्ण होती है। आज कोई भी बालक 2-3 वर्ष की उम्र में विद्यालय में शिक्षा ग्रहण करने के लिए आता है। इस बचपन की अवस्था में बालक का मन-मस्तिष्क एक कोरे कागज के समान होता है। अरविंद ने कहा है कि कोई भी कार के पथर को तराश कर उसे सदर आकत का पद दे देता है। कोई भी सदर मत को तराशने को शिक्षक बहत बड़ी भूमिका होती है। इसी कारण एक अच्छा कहार वही होता है जो गीली मिट्टी को सही आकार प्रदान कर उसे समाज के लिए उपयुक्त विभिन्न के मायम से शुरुआत की 5-6 वर्ष में दिये गये संस्कार एवं गुण उनके सम्पूर्ण जीवन को सुन्दर बनाने में महत्वपूर्ण भूमिका अदा करते हैं।

समाज के वास्तविक शिल्पकार होते हैं शिक्षक:–

एक अच्छा शिल्पकार किसी भी प्रकार के पत्थर को तराश कर उसे सुन्दर आकृति का रूप दे देता है। किसी भी सुन्दर मूर्ति को तराशने में शिल्पकार की बहुत बड़ी भूमिका होती है। इसी प्रकार एक अच्छा कुम्हार वही होता है जो गीली मिट्टी को सही आकार प्रदान कर उसे समाज के लिए उपयोगी बनाने एवं सदर मत का रूप दे देता है। यदि शिल्पकार तथा कुम्हार द्वारा तैयार की गयी मूर्ति एवं बर्तन सुन्दर नहीं है तो वह जिस स्थान पर रखे जाये उस स्थान को और अधिक विकृत स्वरूप ही प्रदान करेगे। शिल्पकार एवं कुम्हार की भूमिका ही स्कूलों एवं समस्त शिक्षकों का यह प्रथम दायित्व एवं कर्त्तव्य है कि वह अपने यहाँ अध्ययनरत सभी बच्चों को इस प्रकार से संचार और सजाये कि उनके द्वारा शिक्षित किये गये सभी बच्चे 'विश्व का प्रकाश' बनकर सारे विश्व को अपनी रोशनी से प्रकाशित कर सकें। इस प्रकार शिक्षक उस शिल्पकार या कुम्हार की भूमिका होता है जो प्रत्येक बालक को समाज की आवश्यकताओं के अनुसार, एक सुन्दर आकृति का रूप प्रदान कर, उसे 'समाज का प्रकाश' अथवा उसे विकृत रूप प्रदान कर 'समाज का अंधकार' बना सकता है।
बालक के जीवन को सफल बनाने की आधारशिला हमें बचपन में ही रखनी चाहिए:-

एक कुशल इंजीनियर वहीं होता है जो एक भव्य इमारत या भवन के निर्माण में उसकी नींव को सबसे उज्ज्वल महत्वपूर्ण मानते हुए उसे मजबूत बनाता है। और जब किसी भवन की नींव मजबूत हो तो फिर आप उसके ऊपर बनाये जाने वाले भवन को जितना चाहें उतना ऊँचा बना सकते हैं। और इस प्रकार से बनी हुई इमारत अन्य भवनों एवं इमारतों की अपेक्षा अधिक समय तक अपने अस्तित्व को बनाये रखने में सफल होती है। ठीक इसी प्रकार से हमें बच्चों के बारे में भी सोचना चाहिए क्योंकि आज के बच्चे ही कल अपने परिवार, समाज, देश तथा विश्व के भविष्य निर्माण बनेंगे। इसलिए हमें प्रत्येक बच्चे की नींव को मजबूत करने के लिए बचपन से ही उसे अपनी वास्तविकताओं के आधार पर भौतिक, सामाजिक तथा आध्यात्मिक तीनों प्रकार की उद्देश्यपूर्ण एवं संतुलित शिक्षा देनी चाहिए।

क्या लड़की होना अपराध है।।

ओ समाज के ठेकेदारों;
क्या गलती थी हमारी,
बेटी बनकर जन्मे,
क्या ये बदकिसमती थी हमारी,
हमने तो सिर्फ सिर उठाके
चलना का साहस किया था,
पर आपने तो यु गिराया कि...
फिर कभी चलना ना आया,
बेटी बनकर जन्मे क्या
ये बदकिसमती थी हमारी।
आज तुम्हें हमे झुकाया हैं,
कल हम तुम्हें झुकाएगे,
गुलामी अब सहेगे नहीं,
चुप अब रहेगे नहीं

आज लक्ष्मी हैं तो
कल दुगों बन जाएँगे
आज सरस्वती हैं तो
कल चंडी बन कर दिखलाएँगे।

दुगों और चंडी ही नहीं
वक्त आने पर
झांसी की रानी भी बन जाएँगे,
जरूरत पडने पर तुम्हारे
सिर को धड से अलग कर दिया जाएगा,
अब तक की थी गुलामी हमने
तुम्से अब आजादी पाएँगे,
अब भारत देश को सही मायनो में आजाद
कराएँगे।।

वृक्ष

अनाज खाकर, हम बने
हम से बना फिर ये संसार
पेड़ पौधे को काटते रहोगे
tो कैसे बचले फिर संसार
वट सावित्री मे बरगद की पुजा
शनि को खुश करे शिवल की पुजा
गणपति को गुड़हल का फूल चढाए
शिवजी को बेल पत्र से नहलाए
किसी दिन पूजा करके दिखाते संस्कार
बाकी दिनो मे काट कर करते इनपर प्रहार
हाथ जोड़े खड़े ये पेड़
लगा रहे है हमसे गुहार
hमे भी है जीने का अधिकार
मत करो हम पर अत्याचार
हर जगह पेड़ पौधे ही काम आए
इनसे औषधि भी बन जाए
अक्सीजन भी हम इनसे पाए
अपना जीवन त्याग कर भी ये
हमारे दिलो को ना छू पाए

पेड़ पौधे कभी लेते नही हमसे
करते है सिर्फ़ दान
हमसे अधिक इनमे होता है
परिश्रम और स्वाभिमान
परोपकारी है ये फिर भी ...
नही दिखाते कभी अभिमान
दिल करता है करते जाँऊ
इन पेड़-पौधो का गुणगाण
हमारे प्राणों की तरह मुल्यवान
है इनके भी प्राण
इनके त्याग को देखकर तो
रोने लगता है आसमान
हम सभी तो मनुष्य है जिसे
कहा जाता है सबसे बुद्धिमान
फिर क्यो नही करते हम इन
उपयोगी पेड-पौधो का सम्मान?

बेटी

बोधे जाते हैं बेटे.. पर उग जाती हैं बेटियाँ,
खान पानी बेटो को.. पर लहराती हैं बेटियाँ,
स्कूल जाते हैं बेटे..पर पड़ जाती हैं बेटियाँ,
मेहनत करते हैं बेटे..पर अवकल आती हैं बेटियाँ,
रुलाते हैं जब खूब बेटे.. तब हंसाती हैं बेटियाँ,
नाम करें न करें बेटे.. पर नाम कमाती हैं बेटियाँ,
जब दर्द देते बेटे.. तब भयभीत होती बेटियाँ,
छोड़ जाते हैं जब बेटे.. तो काम आती हैं बेटियाँ,
आशा रहती हैं बेटो से.. पर पूर्ण करती हैं बेटियाँ, हजारों फरमाइश से भरे हैं बेटे..
पर समय की नजाकत को समझती हैं बेटियाँ,
बेटो को चोंद जैसा मत बनाओ की हर
कोई घूरे कर देखे..
किंतु .. बेटी को सुरूज जैसा बनाओ ताकि
घूरने से पहले सबकी नज़र झुक जाये.
|| हकिकत ||

झौंक रहे है इधर उधर सब|
अपने अंदर झाके कौन?

दृढ़ रहे दुनियाँ में कभिया|
अपने मन में ताके कौन?

सबके भीतर दर्द छुपा हैं|
उसको अब ललकारे कौन?

दुनियाँ सुधरे सब चिल्लाते|
खुद को आज सुधारे कौन?

पर उपदेश कुशल बहुतेरे|
खुद पर आज विचारे कौन?

हम सुधरे तो जग सुधरेगा|
यह सीधी बात उतारे कौन?

|| मेरे पापा ||

जब मैं पैदा हुई
सबकी एक आस थी
बेटी नही सबको बेटे कि प्यास थी।
उस वक्त किसी और के लिए नहीं
पर तुम्हारे लिए मे बेहद खास थी।
इसीलिए तो दुनिया में आते ही
मे तेरे सोने के पास थी।
मेरे पैदा होते ही तुमने,
मुझे गले से लगाया था।
बेटा बेटी का भेद किए बिना
प्यार से अपनाया था।

तो क्या हुआ अगर मैं बेटा नहीं
आखिर पिता होने का सुख तो
तुमने मुझसे ही पाया था।
बेटा होती तो क.Clone पर बैठते
बेटी हुई तो सर आँखों पर बिठाया हैं
खूब सारा प्यार देकर
अपने पिता होने का फर्ज़ निभाया हैं
दुआ है मेरी हर जनम
tumhara hi saath mile
सिर पर छत हो ना हो
पर चलने के लिए फिर से तुम्हारा ही हाथ मिले।

सरली दुःखादरी साय।
हरबदा फुटला अता जाया
मी भारसु अन्ती माझं गाय॥
येशीला का पतिनी आई
आलवण तुवीं येते...।
होक्यात्तीन पाणी फक्त
तुवींच गायचं गाले...
तु गेलीस दूर देशी
मज इथे कोणी नाही
जग जरी माझे अरेल
त्यात तुव नाही॥।
आई महुणी हक मारतो

जीवनात कधीकट हार मानून नका

एकदा एका मोठ्याशा जंगलात दोन सिम्बत्या आंदोलन जगात असतात. एका दिवशी पुढऱ्याचा वेळी या सिम्बत्या द्वरुन एका झाडाचा फांसीवर बसून बिघ्नत्या पेटचे असतात. तेवढ्यात त्यंचे त्याच जिंठनीवर पडते. त्या पाहतात की एक शिकारी नेमका या दोन सिम्बत्याचा नेम होतो. या सिम्बत्या पालून उडण्याचा विचार करतात. तांत्र तेवढ्यात वरुन गदाळ गेल्याला दिसतो. या सिम्बत्या गदाळूनून उडून शकत नाहीत. कारण जर या सिम्बत्या या गदाळूनून नजरेत आल्या तर हा गदाळ नकीच त्याची शिकारी करारपुर लागून असे होते की या सिम्बत्या शिकारी व गदाळ या दोघांमध्ये फसलतात. उडून गेल्या तरी मरणार आहे तरी उडून गेल्या तरी नाही मरणार आहे. परिस्थिती या सिम्बत्यांची होते. या सिम्बत्या आवश्यक मोठाला लागातात व आणि आणि काही करणारे? असा प्रश्न पडतो. तेवढ्या एक शिकारी बोलते आपण देवाळ शपथना करल्या. हुस्याचोरी केवळ हा मर्ग शिकारीपालिकेचे कोणताही पर्यंत नव्हता. मग या दोघी सिम्बत्या प्रारंभाने कारावला लागातात. तेवढ्यात असे होते की एक मुंगी या सिम्बत्याचा पातळा जोडत चालूते मुंगी चालूता मूळे शिकाराचा नेम चुकतो व वंडकूदी गोंडी गदाळा लागाते. शाय या दोघी सिम्बत्या उडून जातात.

या अर्थ असा की जीवनात कितीही संकट आते तरी सुंडी घाऱून नका कारण प्रत्येक केली आप्तायासाठी नवीन काहीही असते जे आपण बुध शकत नाही. कारण काही गोंडी भोग वेळवेळा होत नसते. या तसेच मनासाठी आलविवारा असांच महत्त्याच असते. याच्याच आपला आलविवार हाच आपली स्वाभाविक असते. आणि प्रत्येक समस्तांचे उपयोग आपत्याकडून असतात. मधूनून जीवनात कधीकट हार मानून नका.

"आई" नावाचं महाकाव्य

आई अशी असते, तुमचीदेखील आपण माझी देखील. एवढं कशाला, प्राणिमान्याच्या सुदुरा. आपल्या लेखकसाठी हजार राहण्यावर एवढं आईला माहिती असते. रूळ, आश्रय, गात, प्रतिमा, प्रतिक सगळ वेगळ - वेगळ असते एवढं तेवढं एक असते. ज्या काही बोल रचना मध्ये रूढ रूढ, त्या काहीसारण ती आई होते. सहस्राब्दाच्या स्वाभाविक लेखकसाठी कटवा उपाय राहते. त्या आयु-काळात होवा हे तिने शिक्षक मार्ग राहते, तत्कालिनाच्या जंतूमधा पुढे खुशी करत राहते. त्याच्या वेगळ, वेगळ राहणे. त्याच्या जीवनात उत्तर राहते. जीवनात कडू तत्काळ मर्यादाचे जोरखों पाऊन राहते. हे सारांतरी उपहीरे मोठेपणां नसतो. मी केला हा गाजावाजी करतो. अनल्य निर्धारणां ती हे करत राहते. हे करता करता ती कधी महाकाव्य होत जाते. तेवढं कठिन नसते. आई नावाचं महाकाव्य घातहोत आहे. हृदयाचं माणवींचे जगांचं असे. नामकृतींचे एक भली धोरोले परंतु आपल्या पाठ्यांमध्ये टूटत आपल्या काळात आई नावाचं महाकाव्य आहे. हृदयाचं माणवींचे जगांचं असे. काळी स्वतंत्र, शिव आपण सुंदर असे तर सारां आई नावाचं महाकाव्य आहे. हृदयाचं माणवींचे जगांचं असे.

बील उपदेशाचे
परमेश्वराने आपल्याला हे सर्व परमपकार कर्मयोग्याची दिलेले आहे. मन हे ईश्वरचिंतनाची आणि मानवी जीवन व्रतमाला प्रस्ताविताची; तेला मानवजनन करावासी?
आपले मन अशीत, असुरुक्षित, बैठेन सारे असा तरी सयक्रम हाय सुखाया मार्ग आहे. दु:ख नेतात तथा, दु:खी करून जातात. आयुर्विषयक महत्त्व केलेल्या काढून बनवून, त्यांचे अनंतचे स्वागत करा. जितके दु:खेतून, जितके सुख पण येते. कारण दु:ख हे दरम्यान आहे आणि सुख येणार हे त्रिविध सत्य आहे.
अरे माणसा,........
नको नारे करू या धर्मीवर गर्व...
जप ना जतन मागुसकीया धर्म...
कोगाळांची नको लेखून तुक्कु....
जे जपकाळ तुला जगु फुलगुच्छ...
नको आपला चेहर्यावर ठोक दसू, मैठला धार्मिक अनुष्ठान असुन घोडा बोला, कारण मिठाईला गोडवा हा खोटा असतो आणि तो गोडवा आजाराच्या किंवा घेऊन येतो. मी नाहीं एकत्र करी मीटाम्याचे किंवा, महून मीटाम्याने दे सरचाय धरे.
नाती ही इंद्राय बाचकाची शरदां नाही आणि नातेजी ही शरदात बाचकाची हद्राय नाही. युक या माणसांकृतून होत यहून माणसांतर न सापारता धा तुकूपूर्व रागाय.
जी व्यक्ती आयुर्विषयक कधी आपली होणार तत्त्व ध्वंसाची राजू-मांडळ किंवा झमकून प्राप्त करू नको. अनंत जबरदस्तीने प्राप्त केलं किंवा दिवस पुरुषार जो प्राप्त करणार तो ही मरण, ज्ञानाच प्राप्त करणार तोडी मरणार कारण फायदा असा अपर्यादीप ध्रुवीय.
त्यात मौलिक आपलेच जीवन बदलण्यासाठी के ती जरूर मिळालो पण आयुर्विषयक के ती बदलण्यासाठी डोन देखा जीवन कथीच निर्भर नाही.
अरे माणसा संकेत छोटे असो या मोठे हे बघू नकोच संकटावर मात्र करून करूनच हांके ध्यानाला माही मात्र बघू नको.
या ज्ञान मेलेत्या मधुबावर रस्थायला वरेच असतील, पण तुम्हा जिवंत असलाना समजून हेणारे कथातित नसील.
पूर्वाला जीव चेक्ट साकडे धार्मिक दमालाच्या देवापुरते की, ..., देवा रे! मोठे होऊ दे रे मला, खुप मोठे होऊ दे पण मोठा होऊन कोणी विचारातच तर काम काव्याचे र तुला तर महेंद्रील लहान काही कमी मला. लहान काही कमी मला!!
तकारी तर बनावा असरील तुस्का जीवनाची कारण विशिष्टच आहे आपल्या जीवनाचा हा सीढार,....
ज्ञानाच्या उत्तर्केत्याने बांधणारे फागु लावले आणि जवळी जवळी, करता करता दिवसच समजून गेले.
महून तुमां सिंघुंत आहे र माणसा,
ज्ञानाच काम आवडते तर करू नको
तुला काम आवडतं तेवा करू
का कुणास ताजक
कदाचित आपल्या तुळ्या आवड
उदाहरणारी आवड बनेला.
दुसऱ्य माहिती चाररुक्त माणसांना
मातीतून पद्धतीचे आणि मातीतून घालवावर चर्चा काही... सर्व काही... !

एक हीत हाब "महाराष्ट्र" त्याच नाव.

गाव खुप छान होते.
लोक खुप चांगले होते.
“महाराष्ट्र भाषा बोलत होते,
गुणागिनिद्वादशान नाखेत होते.
लोक मन सुपा मोट होते,
तृतीय खुप खाली होती.
रुकल - खुलत तर एकमेका दुसरो सरी धावून जायचे.
आल्या - गेल्या आहात तुम्हारा नाही तर एक्स्टे तात्पर्य होते.
महाराष्ट्रीय होता एक भाग
“मुंबई” ल्याक नाव.
सर्व उपर्याय आधारणी बाब होती.
महाराष्ट्राची शाही होती.
सर्व उपर्याय आधारणी बाब होती.
महाराष्ट्र नाव आहे.
ने उद्योगातील महाराष्ट्राची तलारी नेल्या सर्व आदरणीय केले.
पाहिजे मन महाराष्ट्राची ते देखले लागले.
माझ्यांनी परिष्कार वात नाही, "अच्छी" जास्त आहे, "मजबूत" कणी हाळावे.
तुम्ही कणी पटू, लागली.
आल्यातून प्रस्ताव लागली.
समाजीत राशी प्राप्त करणे वेगवेगळी होती.
"माझी माहिली वाचत नकली, प्रश्न मोठा" गोदला, नाही, माझी माहिला हुज्जा होती.
दूरदूरदौं दौं होती.
लोकांना एक गूहाने चुकीची.
दूरदूरदौं प्रस्तावातील भाषा लेवा जवळीच वाचली.
लोकांना वाचत आपली मूल सचिवालय प्रस्तावातील जोडणारी, उत्तीलीत होलाई.
सर्वाच्या, असतो "महाराष्ट्रातु" ही विकास होईल महाराष्ट्रीय वाच महात्मीली शिक्षणाची साधने केली.
आल्यातून या भाषेत बोलणारे पाहू तर मालेगी माहिलेची खंडाची.
आफ्तालाही हे आत गहने माही माही माहिली शिक्षणी, माहिली माहिली बोलणारे, बोलणारा ही बदलती.
सचिवाला पुढे कायल ज्ञान.
सोड, सुंदर माहिलाचा लोक ज्ञान.
अशा या महाराष्ट्रातील एक छोटा मुलगा आफ्ना आईवॉर्डर भाषा करा हे?

आपल्या ममती "ममी" बरेकर एकदा वाचनालयात गेला. चूपून त्याचा हात एका पुस्तकाच्या पटकात.
लोक तात्पर्य पुस्तक शाहरून, पानकेडचवळी, आनंदित जिथे क्षात्रात हात वरोया तरी आपल्याला कोणी बाळेल.
इतक्याच या मुलांच्या विचारांना, त्याचा भाषत "ममी" कोणत्या माहिलेतील पुस्तक जाहीर गेले?
